what version do you use ? What exactly is your problem ?

According to your description A becomes aware of C via B. If B goes down A shouldn't see anybody anylonger. At same point the timer of A will remove all routes and information related to B and C. Thats what **should** happen.

#### #2 - 12/22/2006 02:30 AM - Anonymous

This bug is in rc1! now it's resolved

Bye

Nino
