

batctl - Bug #368

batctl transglobal -u/-m not working with 2018.4

12/06/2018 02:39 AM - Andreas Ziegler

Status:	Closed	Start date:	12/06/2018
Priority:	Normal	Due date:	
Assignee:	batman-adv developers	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2019.0		
Description			
after updating to batctl 2018.4 i cannot use the -u and -m parameter of batctl transglobal anymore with 2018.3 those are working fine			
output:			
<pre># batctl transglobal -u Error - unrecognized option '-u' Usage: batctl [options] transglobal tg [parameters] parameters: -h print this help -n don't replace mac addresses with bat-host names -H don't show the header -w [interval] watch mode - refresh the table continuously -u print unicast mac addresses only -m print multicast mac addresses only # batctl transglobal -m Error - unrecognized option '-m' Usage: batctl [options] transglobal tg [parameters] parameters: -h print this help -n don't replace mac addresses with bat-host names -H don't show the header -w [interval] watch mode - refresh the table continuously -u print unicast mac addresses only -m print multicast mac addresses only</pre>			

History

#1 - 12/06/2018 07:33 AM - Sven Eckelmann

- Status changed from New to In Progress
- Target version set to 2019.0

Please test <https://patchwork.open-mesh.org/patch/17667/>

#2 - 12/06/2018 09:26 AM - Sven Eckelmann

- Project changed from batman-adv to batctl
- Target version deleted (2019.0)

#3 - 12/06/2018 09:27 AM - Sven Eckelmann

- Target version set to 2019.0

#4 - 12/06/2018 11:47 PM - Andreas Ziegler

thank you, build and run tested on Debian Jessie and Stretch, working.

#5 - 12/07/2018 08:22 AM - Sven Eckelmann

- *Status changed from In Progress to Resolved*

Queued up for 2019.0

#6 - 12/24/2018 10:17 PM - Sven Eckelmann
