

batman-adv - Feature #385

wireshark: Add support for ELP packets

06/09/2019 03:31 PM - Sven Eckelmann

Status:	Closed	Start date:	06/09/2019
Priority:	Normal	Due date:	
Assignee:	Sven Eckelmann	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	2019.3		
Description			
(This is not a batman-adv feature but the integration of a batman-adv feature in wireshark)			
The wireshark dissector of batman-adv in epan/dissectors/packet-batadv.c is currently missing dissector support for the local announcement packet type BATADV_ELP. Support for it should be implemented for easier debugging of B.A.T.M.A.N. V networks.			

History

#1 - 06/09/2019 09:22 PM - Sven Eckelmann

- Assignee changed from batman-adv developers to Sven Eckelmann
- Status changed from New to In Progress
- File 0004-batadv-Add-support-for-ELP-packets.patch added

#2 - 06/10/2019 07:59 AM - Sven Eckelmann

- Target version set to 2019.3
- Status changed from In Progress to Resolved

Forwarded to wireshark: <https://code.wireshark.org/review/33543>

#3 - 06/10/2019 10:39 PM - Sven Eckelmann

- Status changed from Resolved to Closed

Applied upstream as df40f5b279a3478def849156ca4fb93523e43cd0
