Hi,

on 5.2.0-rc7+ with batman-adv v2019.2-1-gc92331e0 I'm occasionally seeing the following with kmemleak:

unreferenced object 0xffff8b1557cc9480 (size 128):
  comm "softirq", pid 0, jiffies 4298398929 (age 22408.132s)
  hex dump (first 32 bytes):
